Profile Summary

A recent Bachelor of Science graduate in Computer Science from the University of Lucknow, India, I am passionate about front-end development and creating responsive, user-friendly web applications. Aspiring to become a software engineer, I have experience developing projects such as e-commerce websites, basic web applications, games, and other interactive web-based solutions. Proficient in JavaScript, HTML, CSS, responsive design, and API integration, I am also skilled in using tools like Git, GitHub, Visual Studio Code, and testing frameworks such as Jasmine. I bring a strong ability to collaborate effectively and quickly adapt to new technologies.

Education

Bachelor of Science in Computer Science - University of Lucknow, India

June 2021 – June 2024

- Awarded the ICCR Scholarship Program
- Relevant Coursework: Software Engineering, System Analysis and Design, Web Development, Database Management, Data Structures and Algorithm, Object-Oriented Programming
- Capstone Project: Developed a responsive e-commerce website with interactive features as part of final-year project.

Skills

- **Programming Languages:** JavaScript (ES6+), HTML, CSS, SQL (MySQL)
- **Web Development:** Responsive Web Design, API Integration
- **Testing & Debugging:** Jasmine Framework, Lighthouse, Cross-Browser Testing
- **Tools & Platforms:** Visual Studio Code (VS Code), Git, GitHub, Chrome Developer Tools
- **UI/UX Design:** Figma (Basic), Canva
- **Other Skills:** MS Word, MS Excel, MS PowerPoint

Certification

- **Responsive Web Design** – Issued by freeCodeCamp
- **JavaScript Certificate** – Issued by HackerRank
- **CSS Certificate** – Issued by HackerRank
- **SQL Certificate** – Issued by HackerRank

Projects

1. E-commerce Projects

- Developed and deployed two responsive e-commerce websites featuring interactive functionalities, including product display, shopping cart, and streamlined navigation.
- Utilized HTML, CSS, JavaScript, and responsive design principles to deliver mobile-friendly, user-centric interfaces.

2. Web Applications & Games

- Created multiple interactive web applications and games, demonstrating proficiency in JavaScript, HTML, and CSS for logic, event handling, and DOM manipulation.
- Key projects include:
 - **Todo List:** Task management tool with dynamic updates and intuitive user interface.
 - **Calculator:** Arithmetic operation tool with real-time result display.
 - **Rock Paper Scissors:** Game with dynamic logic and visual feedback.
 - **Temperature Converter:** Converts values across Celsius, Fahrenheit, and Kelvin.
 - **Dice Roller:** Simulates rolling dice with randomized results.
 - **Password Generator:** Produces secure, customizable passwords.
 - **Number Guessing Game:** Interactive game with feedback for guesses.
 - **Static YouTube Clone:** Responsive design showcasing media layouts and navigation.

3. Portfolio Website

- Designed and built a personal portfolio website to showcase projects, skills, and accomplishments.
- Focused on creating a responsive and visually appealing interface with mobile-first design principles and a clean, modern layout.

Leadership and Volunteering Experience

Leader, Indonesian Student Association Lucknow Chapter

February 2022 – February 2024

- Led a student organization representing Indonesian students in Lucknow and Uttar Pradesh, fostering a strong sense of community through cultural celebrations, networking events, and student meet-ups while advocating for their needs and providing support.
- Served as the main contact between Indonesian students, the University of Lucknow, and the Indonesian Embassy in New Delhi, ensuring smooth communication and addressing student-related issues effectively.

International Student Delegate, G20 Summit - Kashmir, India

May 2023

- Represented Indonesian students and youth perspectives at the Y20 Consultation held under India's G20 Presidency.
- Actively participated in workshops, brainstorming sessions, and panel discussions to address pressing environmental challenges and advocate for international cooperation.

International Student Delegate, G20 Summit - Lucknow, India

March 2023

- Represented Indonesian students at the Y20 Summit held under India's G20 Presidency, highlighting youth-centric approaches to addressing mental health challenges and career stress management.
- Engaged in discussions and workshops with experts, exploring strategies to empower youth in managing modern challenges.

Languages

- English
- Indonesian

Interest

- Building interactive web applications
- Exploring new frontend technologies
- Learning backend technologies to become a full-stack developer
- Exploring Artificial Intelligence (AI) and its applications in web development
